What have I been doing during this time?
- 7 years of website experience with html,css,js and CMS.
- 2 of then intensively building bespoke hybrid mobile apps (over 100)
- last 4 years building dynamic web interfaces with angular.js and servers with node.js.

During my carrear I have developed these skills:

❖ Proficient developing **Hybrid Mobile aplications** for IOS, Android & FirefoxOS devices.
    Experience with the most comun Javascript libraries to develop webapps: jQuery UI, jQuery Mobile, JQTouch, Zepto, Raphael and Iscroll and **Angular.js**.
    Knowledge of **PhoneGap** (Cordoba)  framework to create mobile aplications for IOS, Android, Blackberry and Windows Phone from a webapp.

❖ Strong  **hand-coding** CSS3 and HTML5.
    Able to take Photoshop mockups and create working HTML templates.
    Experience with emerging standards & technologies such as **HTML5 and CSS3**, incluiding Sass and Jade preprocessed languages.
    Used of **Responsive Design** to adapt design to diferent media and device sizes.

❖ Experience in **JavaScript** (including **jQuery** and MVC **Angular.js**).
    Able to integrate HTML and Javascript code into the web application architecture.
    Developed of RIA websites and console dashboards.
    Expecience working with Graps and metric using svg elements, and **D3.js**.
    Html5 canvas games using **pharse.js**

❖ Knowledge of **server side JavaScript** with **Node.js.**
Experience developing of node.js web server, and **REST** API services.
Node.js and grunt.js enviroment and development tools.
Real time comunications over **websockets**.

❖ Strong with database technologies like **Mongo**, MySQL, **Sqlite** and ACCES.

❖ Knowledge of public commun **APIs** as: **Facebook, Linkedin, Twitter,** and **Github**.

❖ Expericen working with Agile methodologies, **Scrum**, Continuos Integration, **TDD**, Unit test, e2e test (selenium).

❖ Proficient CMS managing, expecially **Wordpress**.
Strong experience in develop wordpress themes and customize existing plugins.
Able to install, admin, manage and customize a huge range of CMS.

❖ Excellent understanding of **cross-browser/cross-platform** compatibility issues.

❖ Following and working in a W3C standards.

❖ Experience working with,revision control and source code management as **GIT, SVN and Mercurial.**

## > EMPLOYMENT HISTORY                                                    x

**2014, Senior Mobile and Front End developer at Santander Bank (BOSTON,US)**

Developing different interactive tools to the colleagues in the branches to improve their daily working procedures. Some of the projects were:

CRM: to keep track of the clients, offer them products, set alerts, notes…
Payments Manager: manage wires and money transfer between clients.
NAO: app to open accounts, for new or current clients.

All of this were responsive webapps, built with angular.js and cosuming API services.

**2013, Senior Mobile and Front End developer at FH 25 & ZED (Madrid,Spain)**

Zed Holding Companies is one the biggest international Spanish Company, formed by Pyro Studios, Ilion Animation Studios, U-Tad university...

Here I was working on R&D in two mainly projects, developing:
-Web and mobile Dashboard interface to consume a bespoke API to develop cloud games  and apps(some of then to clients as Chillingo and Zepto labs).
-Web and mobile Dashboard interface to display Big Data graphs and stadistics.

But also develop several pocs of mobile apps to test our API, building node.js servers and cloud tools.Here I improved my knowledge of angular.js, node.js and d3.js.

**2012, Senior Mobile and Front End developer at Adesis (Madrid,Spain)**

My experience here was working as a front developer, on website and intranets to some of the biggest spanish companies as Repsol, BBVA,Mapfre… using mobile interfaces.

Working always in the technology edge, I learned some the most trending websites technologies, as jade, sass and twitter bootstrap, selenium e2e test…

But especially Angular.js from Gonzalo Ruiz de Villa, one of the Angular.js project commiters, and server side js, with node.js technology, grunt.js, yeoman, bower…

### 2011, Hybrid Mobile Apps Developer at CONCISE Media Design (London,UK)

My my job was a mix of code and customer side.
Developing bespoke apps mainly for ipads (over 100), using JavaScript libraries with CSS3 and HTML5, and going on site to the life events where the apps will be used, to dealing with last minute client changes.

### 2010, Front End Developer at GEMIN-I (London,UK)

As my first job in London, I joined Gemini-I to developed a Wordpress theme for one of his charity projects as volunteer. It was a complex theme where I used CSS3, HTML5, PHP and Java Scripts doing the frontend and backend of the project.

### 2007-2010, Web and Magazines Freelance Designer (Valladolid,SPAIN)

When I was thirteen I made my first web with composer. Now and I have a long experience with cms like  drupal, joomla, forophpbb, zencart.. and especially wordpress.
 I can manage: CSS3, HTML5, PHP, Java Scripts (Jquery, JQuery Mobile..) and Flash.

I was also the layout designer of  the magazine "Articulo 20" during two years, working with Quark, and Photoshop.
As the same time I was working in CAMPRUVA during the mornings.

### 2007-2010, Networks and Systems  administration at CAMPRUVA (Valladolid,SPAIN)

I was the responsible of the correct work on of the computers, and built the network (Windows and Linux servers) of our three offices to share staff and work online.

Managing the databases of the programs and develop new software for our requirements. Aswell I was the responsable of email marketing and develop internal/external websites.

### 2006, Intership in Microsoft Research Mobility Centre (Valladolid,SPAIN)

My employment in Microsoft was in an IT consulting team, like informatic support. giving to the consultants tools to increase their job and manage the clients database.
